SUMMARY

Website Administrator and Digital Advertiser with a background in Information Technology, UI/UX Design, and digital marketing. Experienced in developing conversion-focused landing pages, managing Meta Ads campaigns, optimizing WordPress-based websites, and implementing analytics tools such as Google Analytics 4, Google Tag Manager, and Google Search Console. Skilled in SEO on-page optimization, user behavior tracking, campaign performance analysis, and lead generation reporting. Proven track record in website redesign, custom landing page development using HTML, CSS, and JavaScript, and managing digital campaigns with measurable results, including 151 WhatsApp leads generated through Meta Ads and significant website growth within 3 months. Also experienced in UI/UX design, academic and digital design support, and cross-functional collaboration across customer service, content, and creative teams.

EDUCATION

Universitas Darma Persada - Jakarta, Indonesia 2020 - 2024

Bachelor of Computer Science, Information Technology, Cumulative GPA: 3.52/4.00

Final Project: Smart Cat Cage System Using IoT-Based Automation

- Designed and developed an automated smart cat cage system using Arduino IDE and ESP32.
- Implemented time-based auto-feeding, proximity-triggered food lid mechanism, and real-time monitoring of temperature and humidity.
- Enabled smart notifications for food stock levels using sensor-based alerts.
- Applied Internet of Things (IoT) concepts to improve pet care automation.

SMAS Patriot Bekasi - Bekasi, Indonesia 2017 - 2020

Science

Activities: KURMA (School's Ramadan Gathering Event)

- Committee member assigned to the logistics & equipment division
- Responsible for coordinating venue setup needs, including sourcing large carpets and arranging equipment rentals to support the event

WORK EXPERIENCES

PT Wisatapreneur Daring Indonesia (Widarin Vacations)

Web Administrator & Digital Advertiser

Mar 2026 - Present

- Develop and manage landing pages optimized for conversion and aligned with campaign objectives, particularly for Meta Ads traffic
- Plan, set up, and manage advertising campaigns on Meta Ads, including campaign structure, ad sets, and creative assets
- Monitor and optimize ad performance to maximize leads and campaign effectiveness
- Maintain and update weekly CEP (Category Entry Point) reports in spreadsheets to track and analyze lead generation results
- Managed 37+ Meta Ads campaigns across four travel ad accounts, generating 1,817+

WhatsApp and website leads from 99+ ad creatives within 30 days, with a total ad spend of Rp62.1 million and an average CPL of Rp34K.

- Collaborate with Customer Service team to create detailed PDF itineraries for trips based on client needs

PT Suka Nonton Film (SNF/@sukanontonfilm.id)

Web Developer

Nov 2025 - Mar 2026

- Led a full WordPress website redesign, transforming nearly 100% of the original template into a custom design aligned with SNF's brand identity.
- Managed and published film-related content prepared by the social media team, including articles and editorial website content.
- Wrote and optimized website articles with a focus on SEO on-page optimization to improve search engine visibility.
- Integrated Google Analytics 4 (GA4), Google Tag Manager (GTM), and Google Search Console (GSC) for comprehensive website tracking and performance analysis.
- Implemented custom event tracking and redirects, enabling accurate measurement of social media click events in GA4.
- Developed Google-based user authentication (Google Login) to simplify user access and registration.
- Utilized and managed multiple WordPress plugins to ensure website performance, security, and sustainability.
- Built 2 custom landing pages using HTML, CSS, and JavaScript, fully coded without page builders.
- Achieved significant website growth within 3 months:
 - 28.000+ new users
 - 137.000+ tracked events
 - 60 registered users to date
- Performed regular website backups as a preventive measure against data loss and malware threats.

DigiTugas

Freelance Academic & Digital Design Support

Jan - Oct 2025

- Assisted 160+ clients with academic-related tasks such as journal writing, thesis editing, presentation creation, and document formatting according to university guidelines (including layout, margins, and page numbering).
- Designed posters, digital visuals, and presentation materials using tools like Figma and Canva.
- Delivered UI designs for web and app projects, including wireframes and high-fidelity mockups in Figma.
- Communicated directly with clients via chat to gather requirements, provide updates, and ensure timely delivery.
- Collaborated with freelance partners on joint projects, such as splitting tasks between UI design and front-end development.
- Managed multiple projects simultaneously, ensuring quality and clarity across design and academic outputs.

Skilvul (PT. Impactbyte Teknologi Edukasi)

UI/UX Design Apprenticeship

(Kampus Merdeka Independent Study Certified Program Batch 5)

Aug - Dec 2023

- Completed an intensive UI/UX design program covering user research, wireframing, prototyping, usability testing, and full use of Figma features.
- Participated in weekly logbook reflections, pre-tests, post-tests, and live sessions with industry mentors.
- Collaborated in a cross-functional team on a capstone project to design Explorin, an AI-powered travel app.

- Contributed to UX research by analyzing feedback from existing travel apps and identifying user needs.
- Designed wireframes and high-fidelity UI screens collaboratively using Figma.
- Conducted user testing sessions and presented final project outcomes to mentors and university supervisors.
- Successfully completed the program and received a certified completion badge.

Babastudio (PT. Edu Digital Asia)

UI/UX Design Apprenticeship

(Kampus Merdeka Independent Study Certified Program Batch 4)

Feb - Jun 2023

- Gained foundational knowledge in UI/UX design, digital marketing, SEO, and web analytics.
- Trained on various tools including WordPress, Figma, and Google Analytics.
- Completed practical weekly assignments, including UI redesigns for Alibaba.com, Halodoc, and JKN Mobile, SEO planning, and website development using HTML, CSS, and Bootstrap.
- Collaborated in a team capstone project to design and build a Learning Management System (LMS) website for a university, presented to mentors and university representatives.
- Participated in a BNSP-endorsed Digital Marketing training, developing a full campaign strategy for product growth, including social media content planning, product content design, and Instagram branding.
- Successfully obtained both UI/UX and Digital Marketing certification upon program completion.

Kedai Jajijo

Part-time Cashier & Waitress

2018 - 2021

- Provided direct customer service in a small F&B business, managing both in-store orders and online orders via GoFood, GrabFood, and ShopeeFood.
- Recorded all transactions and sales manually due to the absence of POS systems, ensuring order accuracy and daily report consistency.
- Took and processed customer orders at the cashier, relayed them to the kitchen, and served food and drinks to tables in a timely manner.
- Assisted kitchen staff during peak hours, including beverage preparation and basic service tasks.
- Maintained a clean and welcoming dining area, contributing to overall customer satisfaction.
- Demonstrated flexibility, multitasking, and strong communication skills while working part-time alongside school responsibilities.
